DETAILED ACTION

This is the first Office Action for application number 10/719,757, Holder for a Beverage Container, filed on 11/21/04. Claims 1-4 are pending.

Information Disclosure Statement

The information disclosure statement submitted on 11/21/03 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 3 recites the term "and sideways by means" and "two non-parallel sideways" and it is unclear what is meant by these terms. The claims were examined as if they were to recite, "a sideways means" and "two parallel sideways", respectively.

Claim 2 recites the limitation "said sideways" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Japanese Patent No. JP 2002029304 A to Abe.

The patent to Abe discloses a beverage container holder with a removable tray receptacle (10) (See Fig. 24 for removability), a gripping device having holding jaws (20, 21) which are capable of being pressed resiliently away, the jaws projecting into the receptacle and two non-parallel curved slideways means (20a, 21a) mounted to holding jaws.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
